**The Top 10 Smartphones on the Market**

So you’re in the market for a new top-shelf smartphone? We’ve got you covered.

By FindTheBest / Ben Taylor | Sept. 05, 2013

---

So you’re in the market for a new top-shelf smartphone? We’ve got you covered. We evaluated over 500 phones, compiling reviews from the experts (CNET, PC Mag, Wired.com, PC World) and evaluating each device based on over two-dozen features and specifications (battery capacity, camera quality, CPU speed, pixel density, etc.). Here’s what we found:

RELIABILITY-
Have you heard of this resource before? Does it match other information you know to be true?
Welcome to the AFDB Website

This site is dedicated to spreading the word about the Aluminum® Foil Deflector Beanie and how it can help the average human. Here you will find a description of AFDBs, how to make and use them, and general information about related subjects. I hope that you find the AFDB Homepage to be an important source of AFDB know-how and advocacy.

What Is An AFDB?

An Aluminum Foil Deflector Beanie (AFDB) is a type of headwear that can shield your brain from most electromagnetic psychotronic mind control carriers. AFDBs are inexpensive (even free if you don't mind scrugging for thrown-out aluminium foil) and can be constructed by anyone with at least the dexterity of a chimpanzee (maybe bonobo). This cheap and unobtrusive form of mind control protection offers real security to the masses. Not only do they protect against incoming signals, but...
America's 43rd President, George W. Bush, and First Lady Laura Bush welcome you to the White House.

In Focus

- **The White House gets a facelift!**
  At the First Lady's request, the White House will receive a new coat of paint. Laura Bush kicked off the painting ceremony saying, "There's just something elegant about green." The White House is your house, so [tell us what you think](#).

- **For Sale: Spy Plane**
  The White House offers for sale to the highest bidder: One used spy plane. Top of the line United States military technology foreclosed by bank. High bidder must repossess. Photographs and location available on request. [Inquire via email](#).
HAPPY HOLIDAYS

Holidays at the White House

Take a look at what's happening for the First Family's eighth and final Holiday season at the White House.

Cell Phones at School: Should They Be Allowed?

Should cell phones be allowed in school? A 2010 Pew Research Center study found that 65 percent of cell owners teens bring their phones to school despite any rules that may be in place. Most schools now allow students to have cell phones but require them to be turned off during class because they can be disruptive and distracting. Read on for the pros and cons of allowing cell phones in school to help make the right decision for your child.

The Pros

You can be in touch with your children and know their whereabouts. (The Pew study noted that 80 percent of parents use the phone to monitor their children location.)

Cell Phones in American High Schools: A National Survey

Obringer, S. John; Coffey, Kent
Journal of Technology Studies, v33 n1 p41-47 Win 2007

A survey instrument to determine school policy and practice regarding cell phone use by teachers and students was developed using a literature review, a panel of experts, and then a pilot study with typical respondents. The survey was mailed out randomly to 200 high school principals representing all 50 states. The return rate was 56 percent with responses coming from all regions of the country. The findings include: (1) a majority of high schools (districts) had policies in place, (2) parents generally supported the school's cell phone use policy, (3) classroom teachers used cell phones at school for nonschool-related business, (4) disciplinary action for inappropriate cell phone use by students ranged from a mild reprimand to confiscation of the cell phone, and (5) the potential misuses of camera phones in high schools has not been fully addressed by many schools. Because cell phone use has become a part of American culture, and this technology is constantly being upgraded, school or district policies should be revamped periodically to stay abreast of this phenomenon. Specific recommendations are put forward. (Contains 2 tables.)
